

## **- Petition -**

***To all Council Members and Planners, of the city of Kamloops Assembled: The petition of the undersigned residents of Kamloops states that: Kamloops Constituents oppose the enforced Green Compost Bins WHEREAS***

- Given that the City of Kamloops incurred a bulk purchase of plastic green compost bins forceably delivering these compost bins to homes and charging a fee for them;
- Given that citizen consultation in an inclusive and diverse Municipality is mandatory – and Citizens of Kamloops demand a voice on all future Agenda on Sustainable Development Plans;
- Given that the City of Kamloops failed to consult with constituents needs regarding individual citizen organics recycling needs;
- Given that in previous years yard compost units on a pick up basis functioned well – but was not continued in subsequent years;
- Given that composting on site is far more earth friendly and less carbon intense than the introduction of a large plastic bin CO2 cost of production;
- Given that the City of Kamloops political support for the private foreign corporate Agenda21, Agenda2030 and Agenda2050 and the Kamloops Community Climate Action Plan calls for a reduction in CO2 creation;
- Given that the cost of transportation to and from manufacturer to homes, the cost of transportation from curb to composting facility is also an increase in CO2 emissions exposes uninfallible strategy;
- Given that as stated in the UBCM Local Government Fact Sheets – “good governance is based on an open exchange of conflicting or differing ideas in which parties feel equally heard, respected and unafraid to voice dissenting opinions as they work toward a mutually comfortable solution”;
- Kamloops citizens demand a voice in all decisions on future Kamloops Community Climate Action Plans;
- The promotion and application of the foreign corporate United Nations (UN) / World Economic Forum (WEF) political Agenda seen in the Kamloops CCAP through product purchases without citizen consultation - could be viewed as Outside Influence or Conflict of Interest;
- Kamloops citizens would prefer the continuation of the on site compost bins instead of the collection of organics waste as this is a cleaner solution and costs less taxpayer money;
- The past actions of the City of Kamloops in dealing with unlawful mandatory vaccination, vaccine passports, masking, business lockdowns, travel restrictions, censorship and peaceful protest of Canadians was a political attack on the Canadian Bill of Rights and the Charter of Rights and Freedoms of all Canadians showed constituents the citys total disregard for law;
- Canada is modeled as a Democratic country in which Constituents majority rule is the basis of this Democracy - our democratic institutions contain many safeguards to protect from the tyranny of the minority rule – citizens have the right to have a voice to express their interests in methods to reduce pollutants and protect the environment;
- The decisions on how to reduce CO2 without consulting Kamloops citizens is a disingenuous action on behalf of Staff and Councillors designed to stifle dissenting opinions to the adoption of a private foreign corporate Agenda;
- According to the Local Government Act – municipalities are to work with the support of local citizen interests;
- Citizens of Kamloops do not support any private foreign corporate Agenda and the move of City Council to make decisions without citizen input or to censor dissenting political views and silence local citizens - offends the Community Charter;
- Canadians are not willing to hand over our sovereignty, rights, security and freedoms to foreign corporate private control – regardless of any such private foreign corporate Agenda having been accepted by the city of Kamloops;
- Canadian Citizens want a public statement from the City of Kamloops, that they will reject unconstitutional Agenda and uphold the rights and freedoms of Citizens regardless of any Outside Influence forthright;

*We, the undersigned citizens and residents call upon the City Council to:*

***1. Desist implementing the private foreign corporate UN, WEF, Agenda via Violations of Democracy;***

***2. Call upon the Mayor, City Councillors and Planning Department, to publicly commit to uphold Canadian Law;***

***3. Call upon City Councillors, the Mayor and Planning Department to represent the Citizens of Kamloops instead of foreign corporate private interest;***

***Canadians feel our government has been following a foreign corporate unconstitutional agenda and demand the laws of Canada be followed instead.***

*Dated this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_.*
